COUNTRY LIVING
GREEN MODULAR HOMES

 NEW WORLD®
HOME

The 1,600 square foot “Hudson” cottage will be featured in the November 2010 issue of Country Living magazine. With 2 bedrooms, 2 1/2 baths and an 1,100-square-foot wrap-around porch, this home fully integrates the greenest products and practices available today. To learn more about the Country Living 2010 House of the Year, visit countryliving.com/homegreenhome.

New World Home and Country Living are proud to introduce a unique collection of historically inspired Green Modular Homes. Featuring interior and exterior details that have been hand-selected by the editors of Country Living, each home reflects the comfortable, warm and inviting style found in the pages of the magazine. Start building your dream green home today.
